

Technical Notification 53

DATED: Sept. 3, 2009

Technical Notifications' Continued Active Status

The Technical Group has reviewed the Technical Notifications and determined each notification's status. The effective date of U.S. Figure Skating rule changes for the 2009-10 season was Sept. 1, 2009, unless otherwise stated. As such, U.S. Figure Skating has reviewed all Technical Notifications that were posted prior to Sept. 1, 2009, for relevancy under the current rules.

The following Technical Notifications dated and posted prior to Sept. 1, 2009, remain active until further notice: 35, 41, 46, 48, 49, 50, 51, 52.

Technical Notification 44 gave notice to the membership of the nonqualifying scale of values for pre-juvenile and below events. This Technical Notification is being archived; however, the information contained in the Technical Notification is valid but located in Accounting Central. All other Technical Notifications dated and posted prior to Sept. 1, 2009 are no longer active and will be archived at this time because they have already been incorporated into the rulebook or have become obsolete due to rule changes.
