

Choreographic Sequences, Single & Pair Skating											
	-5	-4	-3	-2	-1	BASE	+1	+2	+3	+4	+5
ChSq	-2,50	-2,00	-1,50	-1,00	-0,50	3.0	+0.50	+1.00	+1.50	+2.00	+2.50

Remarks:

1. The SOV is based on a percentage principle. Each step in GOE up/down results in increasing/decreasing the score for this element by 10% of the Base Value.
2. For Choreographic Sequences this percentage is also consistent for all steps in GOE, but is higher than for other elements.
3. For elements indicated with signs “<”, “e”, “V”, the percentage is taken not from the full Base Value, but from the reduced Base Value.
4. In jump combinations / jump sequences when applying the GOE with the numerical value of the most difficult jump, the signs “<”, “e”, “V” are taken into account (e.g. 3T with Base Value 4.2 is considered more difficult than 3F< with reduced Base Value 3.98).
5. The previous remark does not relate to the sign “+Rep” which leads to 70% of the Base Value of the jump. In this case the GOE is established as a percentage of the original Base Value because the “+Rep” sign has no relation to the quality of execution.
