Re: Including All Judges' Test Results for Each Reported Test

As a reminder to test chairs, for each test reported, the total points awarded by each judge are to be included in your report per Rule TR 8.04 (H).

Concern has been raised about situations where test chairs have not submitted all of the judges' results in tests with a split panel decision; only submitting the one passing result as if the test had been conducted as a single panel test. This is not in accordance with Rule TR 8.04 (H) and therefore is not an acceptable practice.
