43. APPROVED - U.S. Figure Skating Foundation

amendments to the U.S. Figure Skating Foundation bylaws dated to December 12, 2005:

A. To change the reference to “The United States Figure Skating Association” and “USFSA” throughout the USFS Foundation bylaws to “U.S. Figure Skating” [and for convenience and brevity to the defined term, “USFS”] so as to reflect the current “doing business as” name of The United States Figure Skating Association. This current name was created by the filing of a Certificate of Tradename with the Colorado Secretary of State on May 22, 2003. To effect this change, Section 3.2(a) of the USFS Foundation bylaws is amended as follows:

Section 3.2 Number, Classification, Election, Tenure and Qualifications.

(a) The number of trustees of the corporation shall be eleven (11), nine (9) of whom shall have voting rights, and two (2) of whom shall have no voting rights. At no time may a majority of the trustees then in office also serve as directors or officers of The United States Figure Skating Association, a Colorado nonprofit corporation which operates under the tradename, “U S Figure Skating”, hereinafter referred to for convenience and brevity as “USFS”.

B. To amend Section 3.2(b)(iii) of the USFS Foundation bylaws in order to conform to an amendment to the U.S. Figure Skating bylaws adopted at the 2005 Governing Council meeting which provided for the downsizing of the U.S. Figure Skating board of directors and the elimination of its executive committee, effective as of the close of the 2006 Governing Council Meeting. The change to Section 3.2(b)(iii), whereby “board of directors” is inserted in place of “executive committee,” is therefore expected to become effective on or about May 6, 2006. By way of background, Section 3.2 of the Foundation’s bylaws, deals with the number, classification, election, tenure and qualifications of USFS Foundation Trustees. The amendment to Section 3.2(b)(iii) of the USFS Foundation bylaws is as follows:

(iii) four (4) trustees, none of whom shall be officers or directors of U.S. Figure Skating and one of whom shall be a distinguished member of the public, shall be elected by those trustees in office at the time of the election, with the concurrence of the U.S. Figure Skating ~~executive committee~~ board of directors.

Create a new Tests Rule “Requirements for Passing Free Dance Tests”: In order for a free dance test to pass, no serious errors, following reskated elements (New TR 53.50 from 2005 Governing Council), as defined below may be present. However, if only one serious error is present after the test has been skated, judges may have the option of using the second (program components) mark, if warranted, to pass the test or of requesting a reskate.

Serious errors for free dance tests are:

1.) **All required elements:**

a.) **Omission of a required element**

b.) **A fall or stumble entering into or during a required element causing any portion of the element to be missing or the element not to be completed.**

- c.) A touchdown of the free foot or hand needed to save the skater from falling.
- 2.) Lifts:
 - a.) Collapse of a lift;
 - b.) Lift fails to go up;
 - c.) Incorrect type of lift;
 - d.) Same type of lift repeated.
- 3.) Spins:
 - a.) Collapse of a spin
 - b.) Execution on two (2) feet by test candidate(s) upon entering the spin or after the commencement of the spin;
 - c.) Fewer than required rotations if short by one (1) or more rotations;
 - d.) Unequal number of rotations (greater than one (1) rotation);
 - e.) Recenters spin completely (combination spin).
- 4.) Synchronized Twizzles:
 - a.) Unequal number of rotations; Greater than one (1) or more rotations;
 - b.) Execution of turn incorrect (junior and above).

Note: Item b.) provides acknowledgement that twizzles are a developmental element. Juvenile and intermediate competitors are not always competent with these turns. We would be over penalizing a test skater by asking for proficiency of a turn that is probably too early in their development to master.

5.) Step Sequences:

- a.) Pattern incomplete

A. Quality errors for free dance tests not necessitating failure are:

- 1.) Awkward pose(s) within lift or spin;
- 2.) Speed lacking or diminishing within element(s);
- 3.) Little variety in dance holds (taking into consideration test level);
- 4.) More than three (3) steps in between synchronized twizzles;
- 5.) Incidental touchdown of free foot during spin or twizzle.
- 6.) Fewer than required number of rotations in spin if less than one (1) revolution;
- 7.) Unequal number of rotations within a spin if less than one (1) revolution;
- 8.) Unequal number of rotations during a twizzle if less than one (1) rotation;
- 9.) Execution of twizzle incorrect (novice and below);
- 10.) Illegal element(s) – An illegal element is not grounds for a test to fail. However, if there is a predominance of illegal elements within a free dance test, the judge is required to determine if the program meets the definition of a free dance or is more closely aligned to a pair, adagio, or exhibition program.

110. REFERRED back to the Judges Committee, along with a proposal to delay implementation of this action until the 2008 season.

Realignment of the competition judges structure to new competition appointment levels of regional, sectional and national in each currently existing discipline (singles & pairs, dance, and synchronized team skating). The naming convention signifies what qualifying competition a judge at that level is able to judge. A regional judge will be able to judge all levels of competition at a regional qualifying competition, a sectional judge will be able to judge all levels of competition at a sectional qualifying competition (and regional as well) and the national level judge will remain as before. In synchronized team skating, the structure is slightly different since there is no regional competition in which to judge. The following will be grandfathered into the modified appointment structure:

- S&P and Dance - Novice competition judges become regional competition judges
- S&P and Dance - Junior and senior competition judges become sectional competition judges
- Synchronized Team Skating - Novice competition judges become junior sectional competition judges
- Synchronized Team Skating - Junior and senior competition judges become senior sectional competition judges
- All disciplines - National competition judges – no change
