The following elements are required:

LIFTS: _____ Either one short lift and one combination lift or three different types of short lifts. The combination lift (maximum 12 seconds) can be chosen from any combination lift, but the type of short lift must be different from the type(s) of short lifts forming the combination lift. The short lifts (maximum 7 seconds) can be chosen from stationary, straight line, curve or rotational.

SPINS: _____ One dance spin or combination spin:

Spin: Minimum three revolutions on one foot by each partner;

Combination Spin: Minimum three revolutions on one foot by each partner for each part of the spin. There is allowed up to one-half rotation on two feet while changing to the other foot simultaneously by each partner.

STEP SEQUENCES: Two different types of step sequences:

_____ One sequence (in hold) (straight line or curved)

_____ One combination one foot step sequence (turns performed simultaneously on one foot by each partner, not touching)

For the step sequence in hold: One pattern retrogression is permitted, but no more. If performed, it must not exceed two measures of music. Separations are permitted provided they are no more than two arms lengths in distance and do not exceed five seconds in duration. Loops are not permitted, but a narrow loop is an acceptable shape in the retrogression. Stops are not permitted. Dance spins and pirouettes are stops. Hand-in-hand hold is not permitted with fully extended arms. The pattern of the step sequence in hold must maintain the integrity or basic shape of the chosen pattern. Some deviations in the pattern are expected in order to complete the required turns.

SYNCHRONIZED TWIZZLES:

_____ One set of synchronized twizzles, minimum two revolutions in each twizzle by both partners.

Extra elements may be added without penalty. Two different elements may be retried, if necessary.
