

Technical Notification 20

DATED: November 20, 2007

Singles Test Rules

Clarification for Test Rules TR 32.03 through 32.08 - singles free skate tests

In regards to Test Rules TR 32.03 through TR 32.08, the phrase "... up to the maximum allowed ..." in reference to extra elements, should be disregarded. Although the new rules match the well-balanced program content for free skating, no penalty exists in the Test Rules for exceeding the maximum number of elements. The test papers for free skate tests are correct as printed.
