

## ***Technical Notification 24***

DATED: December 3, 2007

### **Scoring Corrections**

#### **1. Clarification for IJS Judging System – Calculation of Results – Pairs**

Rule 3435 (C) (1) has an inadvertent omission and is corrected as follows:

“The total segment scores of the short program and free skate are added and the result constitutes the final score of a skater in an event. The exception is for Novice Pairs SP where a SP segment factor of 0.67 will be used in the calculations. The skater with the highest final score is first, etc.”

#### **2. Permissible Time Allowance – Free Skate, Original Dance and Free Dance**

Clarification to Rule 3516 (B): Rule 3516 (B) is applicable to both the IJS and 6.0 judging systems

“Should the program be thirty (30) or more seconds short of the prescribed range, no marks will be awarded. “
