Pairs - Pivot Spiral

The Pairs Committee has established the following codes and scale of values for the pivot spiral.

Codes:

- Pivot Spiral Level 1 = PvSp1 (values below)
- Pivot Spiral No Level = PvSp (no value)
- By rule the pivot spiral is not eligible for features so there are no codes or values for any levels higher than Level 1.
- To achieve a PvSp1 a pivot spiral must be executed with the regular one-hand to one-hand hold position, and both the man and the lady must execute a minimum of one-half revolution with the man in a pivot position. (rule 4080)

Scale of Values:
