Technical Panel

Questions (Step Sequences)	Answers	Comments
On page 78 of the 2015-16 Technical Panel Handbook, it is written that a Double Twizzle is considered as a Type of One Foot Section Turns for Levels 3 and 4. This is underlined as new for this year. In Communication 1937, this requirement is not indicated. Which is correct?	This is an oversight. The Double Twizzle is required as a Type of One Foot Section Turn and as a Type of Difficult Turn for Levels 3 and 4. The Single Twizzle is considered as a Type of One Foot Section Turn and as a Type of Difficult Turn for only Levels 1 and 2. The underlined section in the Technical Panel Handbook is correct.
