TECHNICAL CONDUCT OF SERIES AND EVENTS

CONDUCT OF COMPETITION

If more than 24 athletes enter an event (e.g. novice ladies) at a competition, skaters will be seeded per [Rule 2460](#) in the U.S. Figure Skating Rulebook. However, a chief referee may request permission from the Chair of Competitions to hold the event as one group. A skater added to an event due to unforeseen circumstances will be added to one of the groups (which group will be at the discretion of the chief referee) up to 24 hours before the start of the first qualifying group in that event.

No reseeding or reassignments between groups will be made after the competitors are notified of their qualifying groups. If an event is divided into groups based on entries, no qualifying or final rounds will be held for any level.

If only one skater is entered in any event at a Championship Series competition, the skater has the following options: skate in the event as a single entry and receive a score for the Series OR move entry to a Championship Series competition where event is being held and there is availability for skater or receive a refund for their entry.

All skaters/teams will compete in all segments as outlined below to earn a total score, which will create the series standings. For example: if there are more than 24 athletes in intermediate ladies, all skaters in group A will compete against each other in the short program, then again in the free skate for a total combined score, which is the athlete's total score for that competition.

SEGMENTS TO BE SKATED

SINGLES (Rules 6400 - 6450)	
Juvenile	Free skate ONLY
Intermediate-Senior	Short program and free skate
PAIRS (Rules 7400 - 7451)	
Juvenile- Intermediate	Free skate ONLY
Novice-Senior	Short program and free skate
ICE DANCE (Rules 8400 - 8452)	

Juvenile-Novice	Pattern dances (2) and free dance
Junior and Senior	Rhythm dance and free dance

SERIES STANDINGS

At the end of each Championship Series competition, all competition results will be uploaded to EMS by the chief accountant as soon as possible following the competition's conclusion. Each skater's total score (see above) is transmitted to the [Series Standings](#). Only a skater's current highest total score is officially recorded. If a skater finishes a competition and beats their previous high score, the score will be updated. If a skater competes but does not beat their current high score, the previous score stands.

Athletes may compete a maximum of two times in the series, with only their highest score counting toward the series ranking and advancement.

The Championship Series standings will be available for viewing in [EMS](#). The standings will display a national rank for all disciplines. Singles events will also display a sectional ranking. To access the standings:

1. Log in to Members Only at www.usfsonline.org.
2. Select EMS.
3. Click "Series Information."
4. Choose "2022 U.S. Figure Skating Championship Series presented by Toyota."
5. Select "Standings."

FREQUENTLY ASKED QUESTIONS

Q: I am a pairs and/or ice dance team who needs to register for our Championship Series competitions that are currently closed for singles entries, what do we do?

A: If competition registration is closed for singles, the LOCs are permitted to accept partnered registration (due to limited competitions). To complete your team's registration, email events@usfigureskating.org and copy your coach(es) with the following information:

- Names and U.S. Figure Skating Member Numbers
- Discipline/Level
- Competition Name(s)

*Note: if a pairs/ice dance athlete would also like to register for singles at a pairs/ice dance registration and the singles registration has closed, we are unable to accommodate the registration. There are no exceptions!

Q: When did registration open and what can I register for?

A: Open Registration opened on July 15 at 12 p.m. ET, in addition to the Championship Series Application via EMS. Registration will re-open on August 10 at 12 p.m. for additional entries based on competition availability.

Q: Do I have to register for the Championship Series (\$25)?

A: Yes – this is a requirement for the 2021-22 qualifying season and this application is separate from competition registration. As of August 31, the series application deadline has been extended through Sept. 10 to ensure ALL athletes have complete registrations for the season.

Q: I participate in singles and pairs/ice dance, what should I do?

A: Athletes should be prepared to compete at the same competitions where their disciplines are held but will need alternative plans if singles entries are maxed out at the second competition during the limited registration window.

Q: If I am a pre-preliminary singles skater, can I “register up” up to juvenile (i.e., two levels)?

A: No, athletes are only permitted to register up **one level**. A pre-juvenile singles skater may register up to juvenile over the summer but must meet the juvenile test requirements (fully processed) by the qualifying deadline, Sept. 1.

Q: What happens if I register up one level and do not meet the test requirements by Sept. 1?

A: During registration, all athletes are presented with the following statement and subsequent questions:

You must pass the required test(s) to compete at your selected level no later than Sept. 1. If you do not meet this requirement, you must choose how you would like to proceed with your registration. Note: the answer you provide is binding and cannot be changed.

- I have met my test requirements for my selected level (i.e., NOT registering up).
- If I do not meet the test requirement by the deadline, change my series and competition registration to the level for which I am qualified.
- If I do not meet the test requirement by the deadline, withdraw me from the qualifying season and issue a refund.

U.S. Figure Skating will audit test eligibility against the “register up” entries throughout the qualifying registration windows. As a reminder, all testing information must be fully processed by Sept. 1, which means the record must be available in the skater’s member record. The Competitions Committee, in conjunction with the Test Committee, highly encourages all to have competition test credit and virtual test credit submitted no later than Aug. 15 to ensure there are no challenges closer to the Sept. 1 deadline.

Q: What do I do if I registered for the wrong level?

A: If registered for the incorrect level for the Championship Series Skater Application or any Championship Series competition registration(s), email productsupport@usfigureskating.org with member number and correct event level.

Q: What happens if my second-choice competition is not participating in the “Limited” registration window?

A: Athletes and coaches need to be prepared to pivot in the second registration window and have plan B/C ready. There will be no waiting lists for any of the Championship Series competitions — once they meet their “max,” they can close registration at any time.

Q: Will nonqualifying competitions be held in conjunction with the Championship Series competitions?

A: Nonqualifying competitions are permitted to be held in conjunction with the Championship Series. Check the [competition websites](#) for additional information.

Q: How will advancement work?

A: Like the U.S. Figure Skating National Qualifying Series, results from the Championship Series events will be uploaded to EMS following each event. Sectional and national rankings will be available for participants. See page nine for advancement information.
