

NATIONAL SKATING MONTH

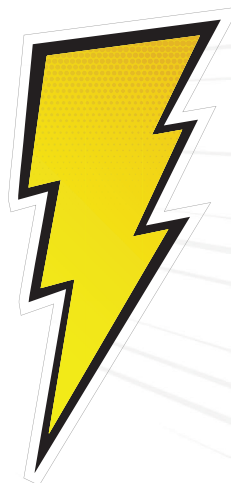

PHOTO BOOTH KIT

THE NATIONAL SKATING MONTH PHOTO BOOTH KIT contains everything you need to include an interactive photo booth at your National Skating Month event.

Your photo booth kit includes large-scale versions of the 10 shapes pictured below. Cut out each individual shape to create a series of handheld props. To maximize this kit, hang a backdrop or designate a blank wall in your facility to serve as the background for each photo, and store the props together close by.

The photo booth kit was designed to encourage participants to share their experience and promote social engagement around your program in a fun and interactive way.

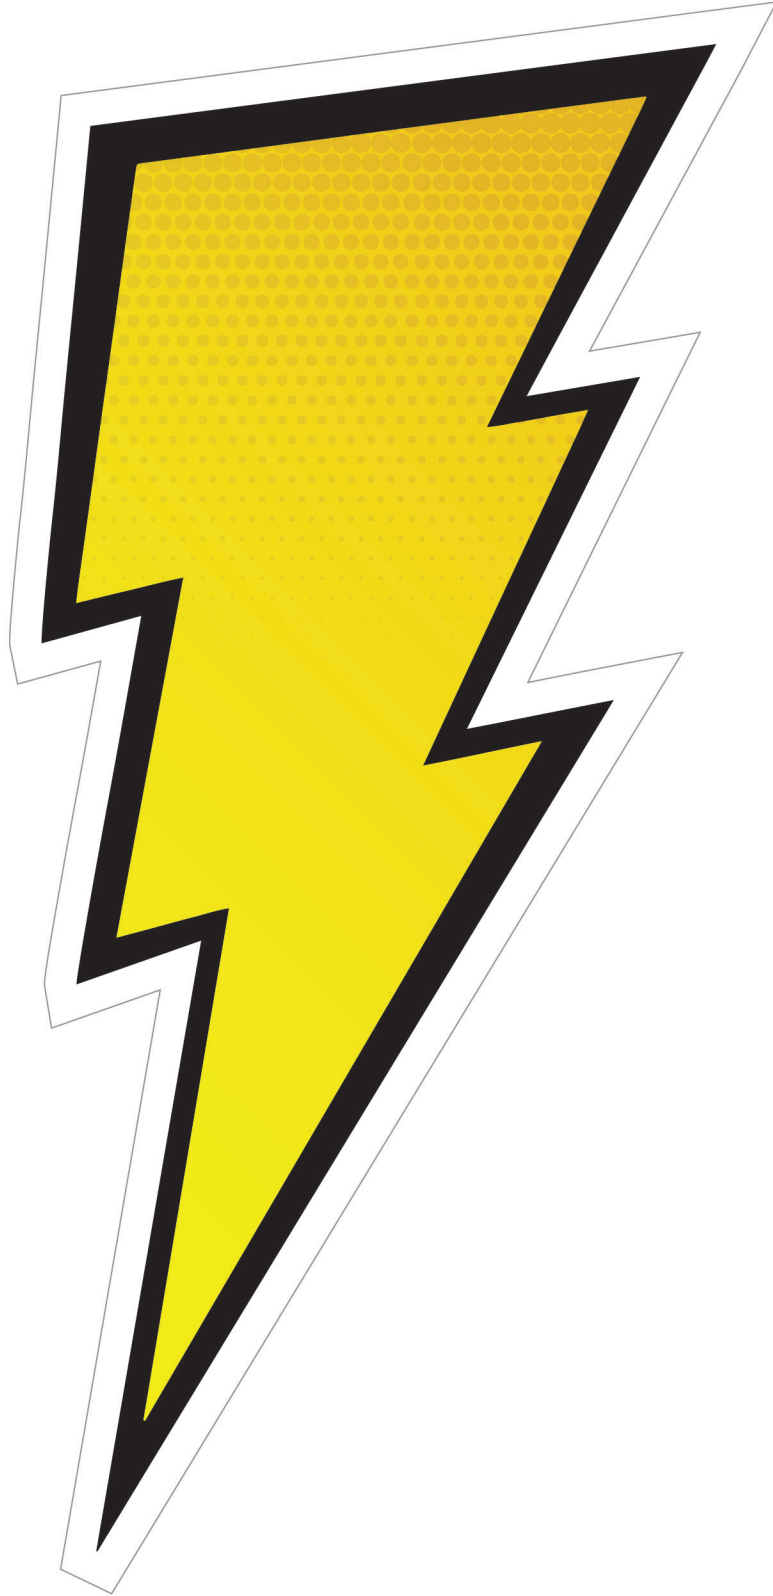

Save this kit and re-use for Learn to Skate USA class graduations, exhibitions or other special events at your facility.
