

## 2024-25 DOMESTIC CALLING SPECIFICATIONS

### OVERVIEW

The U.S. Synchronized Skating Development and Technical Committee caps the levels for certain elements in the preliminary, pre-juvenile, juvenile, open juvenile, intermediate, and masters divisions (*see well-balanced program charts*).

This technical notification clarifies the technical panel calling procedures for elements with **level caps** in the aforementioned divisions.

All other ISU calling specifications, not specifically noted below, will continue to apply.

### TECHNICAL PANEL CALLING PROCEDURES FOR ELEMENTS WITH LEVEL CAPS

The technical panel will evaluate the element as executed and identify the level achieved, **irrespective of the level cap**. If the identified level is higher than the level cap, the technical panel will start reducing from the higher level, rather than the level cap. After reductions are applied, the awarded level can be **no higher than the level cap** allowed for the respective element and respective division.
