U.S. Figure Skating Sectional High School Final Request For Proposal

Thank you for requesting a bid package for the 2027 & 2028 Sectional High School Final to be held in March or April.

These events are facilitated through the Programs and New Programs Development Committee. The purpose of the sectional competitions is to encourage more participation of student-athletes through high school. The intention is to provide a competition in each section (Eastern, Midwest, and Pacific Coast), although, U.S. Figure Skating Programs and New Programs Development Committee reserves the right to combine sectional as needed due to factors such as limited available host sites or low numbers of participating team in a section. These are pilot events with the intention of growing in the high school skating qualifying series in future years.

It is imperative that each club or Interclub Council / Association submitting a bid familiarize itself with the current rules and guidelines for high school competitions which can be found on the High School Programs page of the U.S. Figure Skating website. We anticipate approximately 15-20 teams/100-150 skaters per competition. There will be both team and individual events.

To apply for the 2027 or 2028 Sectional High School Finals, please use this [online application](#).

Thank you for your interest and continued support of our High School Skating Programs!

Sincerely,

Chloe Roberts

OVERVIEW

About Hosting a U.S. Figure Skating Event

U.S. Figure Skating is pleased to provide the opportunity to submit a proposal to host a U.S. Figure Skating supported event. The information contained in this document and the accompanying attachments provides the minimum bid specifications for hosting this event, as well as essential information that will provide assistance in the development of a creative, comprehensive and competitive bid proposal.

The event outlined in this RFP is the property of U.S. Figure Skating. U.S. Figure Skating is the national governing body (NGB) for the sport of figure skating, as recognized by the U.S. Olympic and Paralympic Committee (USOPC). To maintain our certification as an NGB, U.S. Figure Skating is required to comply with the USOPC certification program. This means that U.S. Figure Skating must assure that all sanctioned events must follow the appropriate NGB standards.

As such, U.S. Figure Skating will oversee all aspects of the event and will, by contract, delegate certain aspects of the management of the competition to the local organizing committee (LOC).

The LOC is defined as a U.S. Figure Skating member club, convention and visitor's bureau (CVB), sports commission, or any combination of these organizations. The LOC will serve as the local hosts of the competition under the guidance of U.S. Figure Skating.

Prospective LOCs may submit a bid to host this competition which displays their ability to meet the hosting requirements as outlined in this document. The bid review process will proceed as follows:

- Request for Proposal (RFP) Release: U.S. Figure Skating will release an RFP outlining all hosting requirements for the event.
- Bid Development: Prospective LOC's compile a bid displaying how they plan to carry out the hosting requirements of the event.
- Bid Review: A review committee comprised of members of the U.S. Figure Skating High School Programs Subcommittee will review all submitted bids and evaluate bids to determine the best suited host.
- Provisional Award: A provisional award will be granted to the preferred LOC as selected by the review committee. A public announcement about the host site will be made after provisional agreement is signed. Upon receipt of this provisional award, the preferred LOC will be required to:
 - Complete a provisional Agreement to Host.
 - Provide confirmed contracts of dates held at host facilities and key hotel properties.
- Final Award: Upon completion of the provisional agreement and required contracts, a final award will be granted and will serve as the final sanctioning of the event after all information requested upon provisional award is received by U.S. Figure Skating.
 - Any LOC not chosen by the committee will be notified of the decision prior to a public announcement. This communication will include any applicable feedback and LOCs not selected may be approached about hosting in future seasons.

About the Sectional High School Finals

High School skating encourages student-athletes to continue to compete in figure skating through their high school years. Further, it provides them with an opportunity to compete in their sport on a recognized team for their school or region.

The Sectional High School Finals will be open to all registered U.S. Figure Skating High School Skating Teams. Teams align with the traditional U.S. Figure Skating sectional structure. The intention is to provide a competition in each section (Eastern, Midwest, and Pacific Coast) or a combined sectional event (Midwest/Pacific Coast) in the event that the number of teams in the Pacific Coast does not warrant its own event.

Teams will not need to participate in a qualifying structure in order to attend this event. Skaters must be part of a registered high school team in order to participate in this event.

In both 2024 & 2025, the Sectional High School Finals were hosted by the Skating Council of Illinois (combined Midwest/Pacific Coast Sectional, Evanston, IL) and Champlain Valley Skating Club (Eastern Sectional, Burlington, VT)

The Sectional High School Finals shall be comprised of Excel Free Skate, Short Program, Junior & Senior Championship (well-balanced) Free Skate, Solo Pattern Dance, Solo Free Dance, Showcase Emotional Performance, Showcase Character Performance, Showcase Duets & Trios, Adaptive Skating, and Team Maneuvers. Events offered should include all levels available in addition to separate men's and women's groups as applicable for singles events. Adaptive levels may be offered if warranted.

Commercial Rights & Sponsorship

U.S. Figure Skating owns all commercial rights to the competition and all rights relating to television, radio, internet, broadcasting, video recording, webcasting/streaming, internet hosting, and photographing of the competition, and such rights are the sole property of U.S. Figure Skating, except as assigned to the LOC within the Agreement to Host. No recorded media in any format now known or unknown may be broadcast, copied, streamed, or distributed (including, without limitation, any and all social media) without prior written approval and subject to the terms and conditions set forth by U.S. Figure Skating.

U.S. Figure Skating retains the exclusive right to obtain competition or national sponsors in any and all categories and require execution of sponsorship term fulfillment as a part of the hosting requirements. This may include but is not limited to vendor space, signage, etc. The LOC has the right to solicit local sponsors for the competition in order to offset its expenses subject to U.S. Figure Skating approval and additional conditions.

Judging System

Team Maneuvers will be judged using the 6.0 Judging System. Showcase events will be judged using Components Judging System (CJS), which can be done on paper. All other events may use either 6.0 or the International Judging System (IJS).

The bid application will ask for the LOC's preference on the judging system, to allow for the bidding LOC to ensure cost effective means for hosting this event. Upon selection, signing of the provisional agreement, and a meeting with the other selected LOCs and the High School Programs Subcommittee, the judging system decided upon will be listed in the published competition announcement.

Events Included & Projected Entries

Due to these competitions still being pilots, we cannot predict with certainty what event numbers will be for these events. There are currently two seasons worth of historical information available for these events:

2024 Entry Information

- Midwest/Pacific Coast Sectional: 36 teams, 248 total starts

2025 Entry Information

- Midwest/Pacific Coast Sectional: 51 teams, 342 total starts
- Eastern Sectional: 16 total teams, 230 total starts

The High School Programs Subcommittee and the U.S. Figure Skating HQ Liaison will coordinate event offerings for our LOCs that would provide the most participation possible without exceeded available ice time. The below events may be offered:
